Allowable Subject Matter

1. Claim 3 is allowed.
2. The following is an examiner's statement of reasons for allowance: In claim 3, the patentability, at least in part, is a combination of: a method for manufacturing a circuit device, comprising the steps of: mounting a plurality of electronic components on an insulation layer, wherein the insulation layer is stacked on a wiring layer of a wiring substrate, and wherein each of the electronic components having a bump electrode on one side and a pad electrode on the other side in such a manner that the bump electrode is buried into the insulation layer; pressing the pad electrode of each of the mounted electronic components with a heater tool, pressing the electronic components into the insulation layer until the pad electrode reaches the surface of the insulation layer to mechanically bond the electronic components and the wiring layer together at the bump electrodes and then harden the insulation layer; and electrically bonding another component to at least part of the pad electrodes which are pressed by the heater tool".
3. The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
